

PIANISTI JAZZ

Ho stilato una lista dei pianisti che ritengo debbano essere conosciuti per un quadro generale del panorama jazzistico.

Nella prima pagina figurano quelli che reputo di fondamentale importanza, soprattutto in relazione al secolo scorso.

Essi sono stati divisi per decenni secondo un criterio storico-stilistico di massima che tiene conto del periodo in cui ogni pianista ha maturato il proprio stile in rapporto alle incisioni o collaborazioni più significative.

Una concezione moderna della storia della musica tiene però conto di un'idea sincronica dell'evolversi musicale, per cui i musicisti posti in un decennio sono chiaramente stati attivi in altri periodi, sia precedenti che posteriori.

Nella seconda pagina ho inserito molti altri pianisti che consiglio di ascoltare.

Premetto che tali scelte sono frutto di **gusto personale** e di una **conoscenza parziale** dell'immenso panorama esistente.

Nel caso i pianisti non fossero di provenienza statunitense ho inserito a fianco la nazionalità: a mio avviso soprattutto a partire dagli anni 2000 il jazz sta diventando sempre di più un fenomeno globale.
